Wels, 01.06.2026

Country of Origin Fronius Reserva Pro

Fronius International GmbH
hereby declares that the battery-cells and -modules (4,240,390) of the Fronius Reserva **Pro** are fully manufactured in the European Union.

The battery management system (BMS, 4,240,391 | 4,240,394) of the Fronius Reserva **Pro** is manufactured outside EU (Vietnam).

Fronius Reserva **Pro** energy storage systems meet the criteria for support and funding programs that offer financial incentives based the devices' actual production location within the European Union (e.g., as in Austria, Italy and Poland).

This document serves as official confirmation for implementing institutions; however, Fronius assumes no liability for the granting of the funding or for any additional requirements associated therewith.
