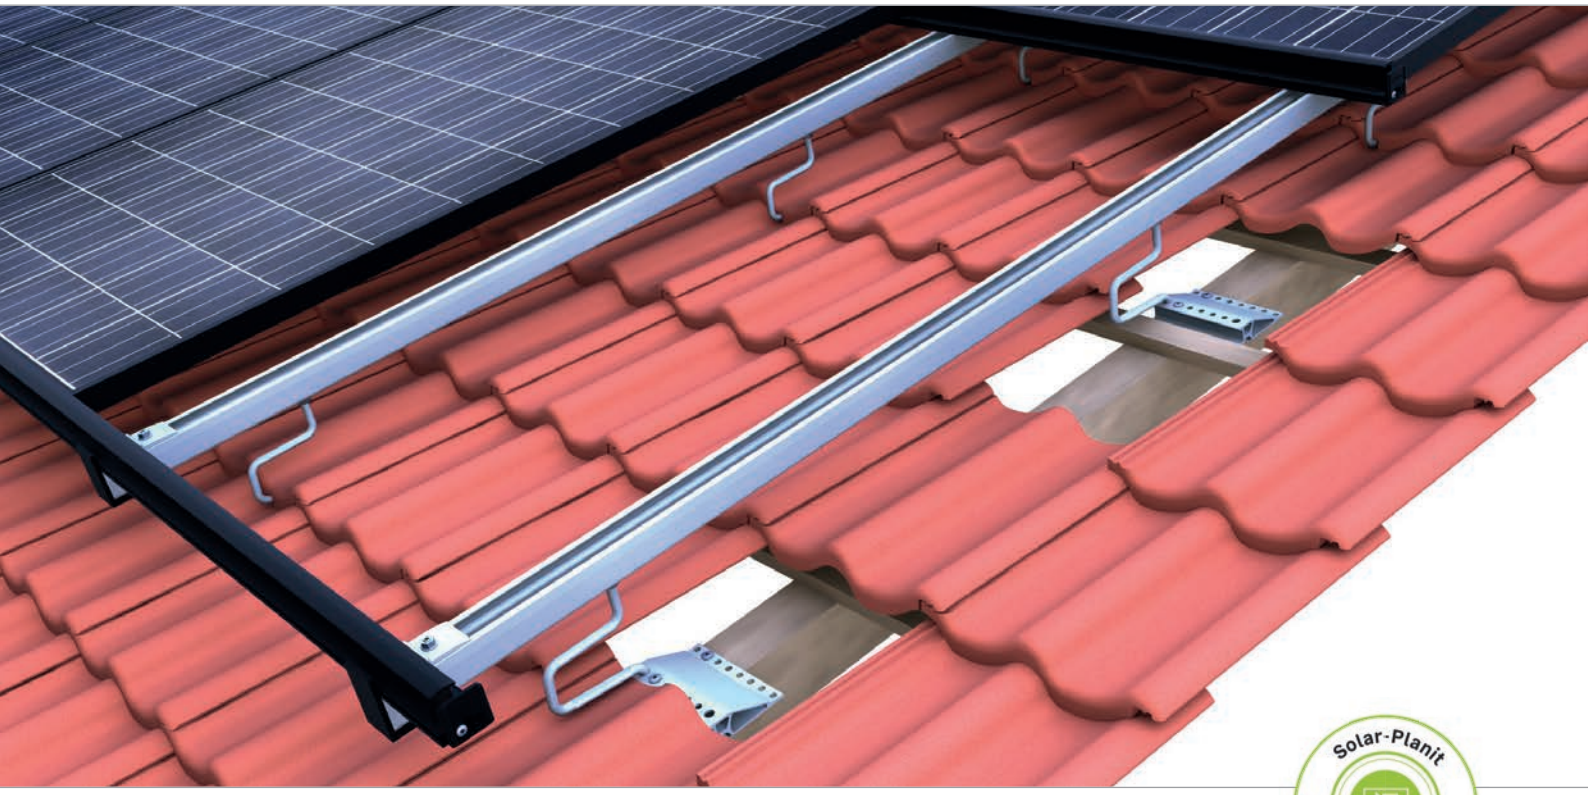
Tile roof | insertion system top-fix

Insertion system with modules installed in portrait



Position, insert – finished!

- components usable across different roof types
- narrow tile gap and centric load distribution
- mounting modules in portrait or in landscape
- insertion rail in blank and black anodized – color matching the module

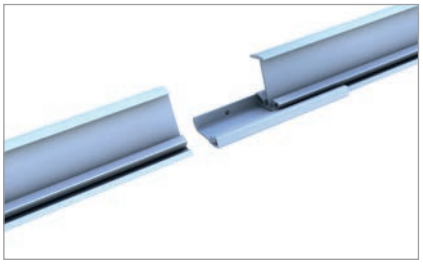
product variants

- flex roof hook for low loads
- roof hook versions for 40mm battens available

Your benefits

- high-end installation aesthetics and time-efficient thanks to insertion technology
- three-way adjustable roof hook to level out uneven roofs, for different tile strenghts and shapes
- tension-free and floating module mounting
- the C-rail also acts as a cable channel

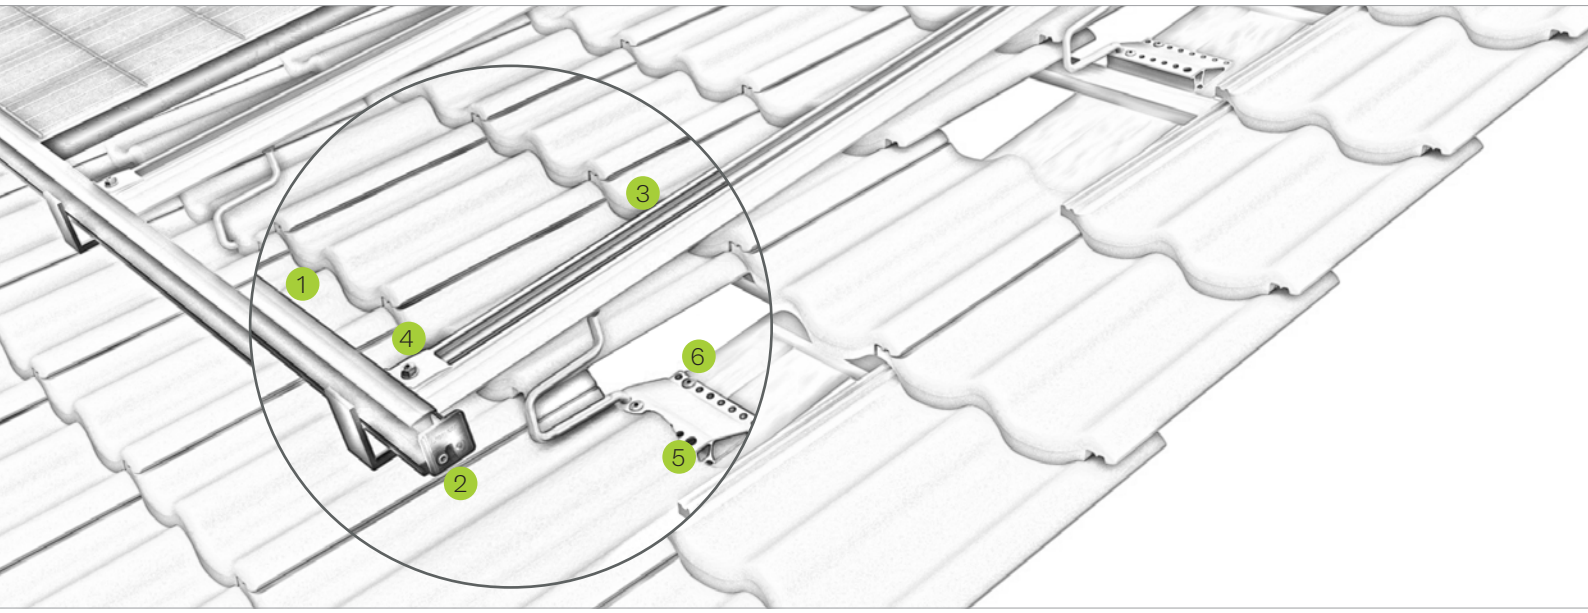
Height-adjustable flex roof hook set



Rail connector insertion rail

Closing insertion rail and C-rail

novotegra top-fix | insertion system



Pic	Designation
1	**Insertion rail** • Insertion rails in blank/black anodized for frame heights • Tension-freemounting
2	**Edge stop** • color-coordinated with the insertion rail • prevents modules from slipping out
3	**C-rail** • available in different strength and lengths • can be stepped on throughout installation
4	**Cross-rail connector** • safe connection due to force and form closure • completely pre-assembled
5	**Roof hook** • three-way adjustable for perfect installations • various roof hooks for low and high load situations
6	**Screws** • building authority-approved • Ø 6 / 8 mm available in different lengths

Light roof hooks for narrow rafters
